Reporting questionnaire

Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. Over the next two years as part of this strategy we will be focusing on:

- Reviewing our Recruitment strategy
- Continuing our Fit for Leadership program
- Continuing our Women in Leadership events
- Reviewing flexible work practices and the technology required to support these practices
- Conducting a diversity audit across RAA and analysing the findings to look for opportunities.

As part of the Diversity and Inclusion strategy we have commenced training within our People and Environment team to build capability around diversity and inclusion.
